

Safety shoes S3, ENDURANCE MID, black

YOU CAN RELY ON THESE SHOES! Premium performer with a clear design for tough applications. The ENDURANCE MID with fiberglass toe cap and metal-free, flexible FAP® penetration protection is the ideal safety boot for construction, trade and industry. The greased full-grain cowhide upper with TPU reinforcements for support (TPU HEEL SUPPORT) is easy to clean thanks to few seams and ensures stability. The Duo PU sole with overcap is slip and abrasion resistant. A shock absorber in the heel area absorbs the impact energy and protects the ligaments and spine through gentle cushioning. The ALBATROS® COMFIT®RELAX memory foam footbed provides extra comfort in the safety shoe. The thermo-foam of this footbed adapts to the individual shape of your foot using body heat. This ensures optimum pressure distribution over the entire surface of the foot. The foot is relieved and gets more support. After taking it off, it returns to its original shape (memory effect). The textile cover used is robust, washable at up to 30°C (hand wash) and quick-drying. Perfect for long working days!

- Protection: fiberglass cap, metal-free, flexible FAP penetration protection
- Upper: greased full cowhide with additional TPU reinforcement
- Plus: closed dust flap, TPU heel support system for more stability

- Footbed: removable COMFIT RELAX memory foam footbed
- Lining: breathable 3D functional lining
- Sole: CRAFTHD - non-slip DUO PU outsole with overcap and shock absorber
